Prices for testing range from JOD25/US\$35 to JOD45/US\$63. The rapid antigen test is also available from various major labs such as Biolab and Medlab for a price of JOD10-15/US\$14-20.

PCR testing in Jordan is readily available and results can be obtained in anywhere from 6-48 hours.

Many labs provide individuals with an option to get tested at home, in the office, or even in their hotel.

There are several drive thru locations available for testing which are operated by labs or private sector hospitals.
